## IN TEXT:

#### IN EVERY TYPE

### 1 Author:

When paraphrasing, you put the source information into your own words and phrases. The author's name can appear outside the brackets, incorporated into the sentence:

According to [Brown \(2009\)](#) the best source of ...

Or it can appear inside the brackets:

... was the case ([Brown, 2009](#)).

### 2 Author:

When paraphrasing, you put the source information into your own words and phrases. The authors' names can appear outside the brackets, incorporated into the sentence:

According to [Brown and Khan \(2016\)](#) the best source of ...

Or they can appear inside the brackets:

... was the case ([Brown & Khan, 2016](#)).

### 3 Author:

When paraphrasing, you put the source information into your own words and phrases.

## APA Referencing

### First in-text citation :

The first time the source is cited, all authors are used.

The authors' names can appear outside the brackets, incorporated into the sentence:

According to [Brown, Khan, and Zhang \(2016\)](#) the best source of ...

Or they can appear inside the brackets:

... was the case ([Brown, Khan, & Zhang, 2016](#)).

### Later in-text citations:

After the first time the source is mentioned, all authors beyond the first can be abbreviated using "et al.":

According to [Brown et al. \(2016\)](#) ...

### **4 Author:**

When paraphrasing, you put the source information into your own words and phrases.

### First in-text citation :

The first time the source is cited, all authors are used. The authors' names can appear outside the brackets, incorporated into the sentence:

According to [Brown, Khan, Zhang, and Williams \(2016\)](#) the best source of ...

Or they can appear inside the brackets:

... was the case ([Brown, Khan, Zhang, & Williams, 2016](#)).

### Later in-text citations:

After the first time the source is mentioned, all authors beyond the first can be abbreviated using "et al.":
